

Clarity™ Transparency Cleaning System

Description

CLARITY™ TRANSPARENCY CLEANING SYSTEM is a two-part cleaning method that can easily remove debris from coated and uncoated plastic transparencies with an emphasis on removing insect residue. The proprietary blend also affords additional protection to the substrate and facilitates future cleanings, thereby potentially increasing the transparency's useful life and reducing maintenance time.

The cleaning process first utilizes wet wipes that are formulated to remove the superficial debris. The secondary dry wipe is used to remove any haze that remains on the substrate. The package conveniently comes with both wipes sealed in individual compartments. Wipes are disposable and not resealable. Recommended one-time use only.

The cloths have been carefully selected to give good durability to the single use application without damaging the coating. The packaging typically contains 2 wet wipes and 1 dry wipe which can cover approximately 15 ft². Normal use is expected to utilize one wipe. Where extensive debris is present, additional wipes may be necessary.

Part Number: 599306

Performance features

- Consistency in cleaning method and materials
- Easy use and application
- Improved transparency lifespan
- Facilitates future cleaning methods
- Low lint application
- Non-abrasive
- Preselected wiping cloths
- Reduced time for periodic cleanings
- Vapor barrier resistant packaging

Basic usage

- 2 wet cloths, 1 dry cloth
- Package intended to clean approximately 15 ft² of area
- Dispose of wipe upon visible debris according to federal, state, and local ordinances
- Intended for aircraft transparencies use

Directions for use

- Use finger pressure (no palm pressure)
- Wipe in direction of airflow
- Wipe with wet cloth and immediately follow with dry wipe
- If surface dries prior to dry wipe and residue remains, re-wet the surface with wet wipe and immediately follow with dry wipe

Storage

Clarity Transparency Cleaning System packages should be stored away from sunlight at room temperature up to 6 months from date of manufacture.

Please contact PPG customer service for advice, comments, or concerns.

Health precautions

This product is safe to use and apply when recommended precautions are followed. Before using this product, read and understand the Safety Data Sheet (SDS), which provides information on health, physical and environmental hazards, handling precautions and first aid recommendations. An SDS is available on request. Avoid overexposure. Obtain medical care in case of extreme overexposure.

For industrial use only. Keep away from children.
